MAURICIO URIONA MALDONADO

[1] "My research is focused on accelerating the transitions towards sustainable and low-carbon economies by studying the case of Developing Countries. I use system dynamics models to inform public policy and sustainability transitions theoretical frameworks to ground my findings. I lead the Sustainable Energy Innovation Group (Sinergia) at UFSC. My research has been published in several journals and in specialized conferences across the world. I held visiting positions at Universidad Autonoma de Madrid (Spain), University of Tampere (Finland) and University of Bremen (Germany) and received training at the Massachusetts Institute of Technology (USA)."

EDUCATION

2012 2008

PhD. in Knowledge Management and Engineering

Federal University of Santa Catarina

• Florianopolis, Brazil

- PhD Dissertation: Sectoral Innovation Dynamics, Innovation Systems, System Dynamics, IT Sector
- · CAPES Fellow, PEC-PG. Supervised by Prof. G. Varvakis
- Co-supervised by Prof. V. Kern (UFSC) and Prof. R. Pietrobon (Duke University)

2008 2006

M.Sc. in Knowledge Management and Engineering

Federal University of Santa Catarina

• Florianopolis, Brazil

- Thesis: Business Process Management, System Dynamics, IT Sector
- · CNPg Fellow, PEC-PG. Supervised by Prof. G. Varvakis

2004 2000

B.S. in Industrial Engineering

Military School of Engineering (EMI)

Q La Paz, Bolivia

· Thesis: Strategic Planning, Service Industry

♣ TEACHING EXPERIENCE

Current 2013

Associate Professor

Federal University of Santa Catarina

- ♥ Florianopolis, Brazil
- · Department of Industrial and Systems Engineering
- Courses taught in Undergraduate Level: Decision Analysis, IT Management/Data Science, Microeconomics, Ethics in Business
- Courses taught in Graduate level: System Dynamics Simulation, Innovation and Industrial Economics, Renewable Energy Economics

2012 2009

Teaching Assistant

Federal University of Santa Catarina

• Florianopolis, Brazil

- Department of Information Science
- TA in the course "Service Organizations"
